Why BIO Asia-Taiwan?

- Expand exposure and engagement
- Access fast growing Asian markets
- Explore multiple opportunities
- Broaden international collaboration

Taiwan Biotech Industry: A fast growing market

“Taiwan is already a global powerhouse in technology, IT, and computing systems, and as biotech evolves, we are creating new products that marry breakthroughs like artificial intelligence with Big Data, derived from the human genome. **That’s why Taiwan is uniquely situated to play an integral role in the future of our industry.**”

Former BIO Global CEO, James C. Greenwood

Ing-wen Tsai, President, Taiwan

BIO One-on-One Partnering™

Onsite | July 27-29 | TaiNEX 1 (Taipei Nangang Exhibition Center, Hall 1)

Online | July 25-29 | BIO system

World's Largest Partnering Experience

The world's largest partnering experience, **BIO One-On-One Partnering™** has a proven track-record of facilitating critical business connections in a virtual environment - ensuring our global customers achieve their goals.

BIO One-on-One Partnering allows you to schedule onsite and virtual meetings in your time zone to maximize your business development and licensing potential. Featuring simple video conferencing and more biotechnology-specific search filters & therapeutic categories than any other biotech partnering platform, BIO One-on-One Partnering is your business development companion.

Partnering Features

Efficient User Experience - identify ideal prospects in minutes with advanced search filters

Automatically scheduled meetings, with the flexibility to self-schedule your meetings

Reach Global Partners - 24-hour meeting timeslots to maximize your meeting potential

Scheduled meetings and updates pushed to your outlook or other calendar
